Press and Endorsements

Endorsements

NIANTIC

"With foundational patents and proprietary technology, Johnny's team is bringing outdoor gaming into major genres – action, role-playing, racing, strategy – that have long thrived on PC and console but never successfully translated outdoors.

Their vision is bold, and their execution is grounded in both technical depth and player insight. It's with confidence that I can say Johnny and his team are leading the next evolution of outdoor gaming."

— Jenna Seiden, former Niantic VP Business Development

PlayStation

"Johnny is the best communicator and most 'can-do' guy I work with."

— Jack Tretton, former PlayStation CEO

Forbes

"*I haven't seen anything like this since Pokemon Go.*"

— Charlie Fink, Forbes

- "It's the coolest thing ever, a million times better than video games, everything great about physical sports." — Rony Abovitz, former Magic Leap Founder / CEO
- "The best AR game I've ever seen."— XREAL Co-Founder Peng Jin
- "It is the best game I've seen at the show, for sure… there's nothing that I've played or even seen in the last two days here except really this that would make me want to go out and buy a pair of smart glasses. There's nothing on the market like it." — Marty Hails, unpaid major influencer
- "Powerful and unique… It's great. It's very, very, very powerful. Have the Niantic folks seen this, like 'where have you been all my life?'" — Ted Schilowitz, former Futurist at Fox and Paramount.

Press Videos

See journalists and fans call us "the best game at the show!":

- at Augmented World Expo 2026
- at Game Developer Conference 2026

Other Press Articles

- In 2026, Dave Bradley, the GM of Pocket Gamer, the world's #1 mobile game website, praised us in this feature article, the first article that as GM he had written personally in a year.
- Alex Wawro, Tom's Guide, I Just Saw the Future of Mobile Gaming Through AR Glasses, and It Looks Wild
